NETWORK MANAGEMENT

Aspire™

Touch-Free and Designed to Protect

Digilock's Aspire RFID looks after your personal belongings with a balance of distinct form and function. Whether it's for a new installation or a retrofit, this touch-free option is the perfect, dedicated solution to keeping the workplace

Safe and Sound.

Digilock®

The Touch-Free Solution

Aspire electronic lock solutions secure the workplace with ease. With shared and assigned-use capability, system-wide compatibility and minimal management, it's a complete secured storage solution.

For installations that require rapid and ready access, Digilock's touch-free RFID locks offer complete contact-free solutions without buttons or keys. Access is a simple swipe of the RFID credential or Mobile ID - giving your location and your workflow a simple, efficient solution.

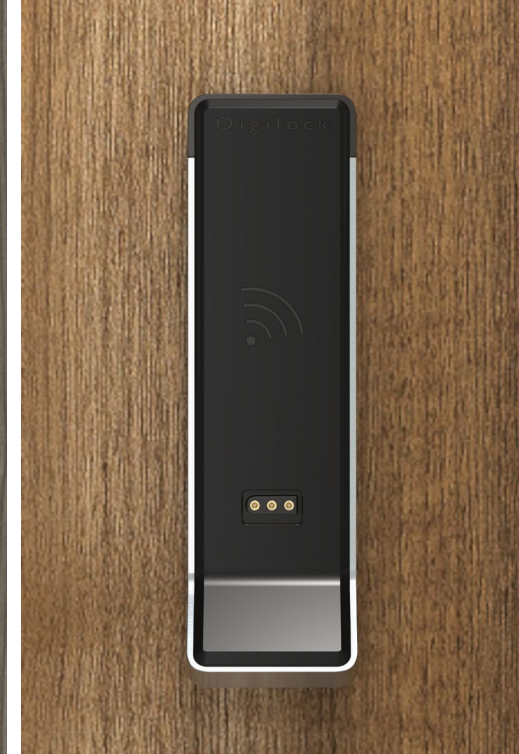

Engineered for Everywhere

From inspiration to installation, we partner with our customers in many industries to ensure that their facilities offer the latest in personal security solutions, providing convenience and peace of mind.

- Workplace
- Hospitality
- Manufacturing
- Healthcare
- Retail
- Government

Combining quality construction with state-of-the-art security, Aspire is perfect for the most demanding environments. Easily managed and simple to use, our lock solutions modernize any space with improved flexibility and collaboration.

FUNCTIONALITY

Choose the Use Case That's Right for You.

SHARED USE

A simple day-use solution, shared use functionality lets the User pick the available storage space and present their valid credential to both lock and unlock your Aspire units. When the current user is done and the storage space is vacated, Aspire is ready for the next User and credential.

OR

ASSIGNED USE

If you need to assign storage for a longer period of time, assigned use lets management program single or multiple credentials to the lock for the User or Users. They simply present their assigned credential to open. Then the auto-relock feature is activated and all the user needs to do is shut the door.

Locking Options for Shared and Assigned Use

DUAL-USE DEADBOLT

Features a 1/2" (12.7mm) motorized deadbolt designed for either shared or assigned use functionality.

AUTO-RE LOCK DEADLATCH

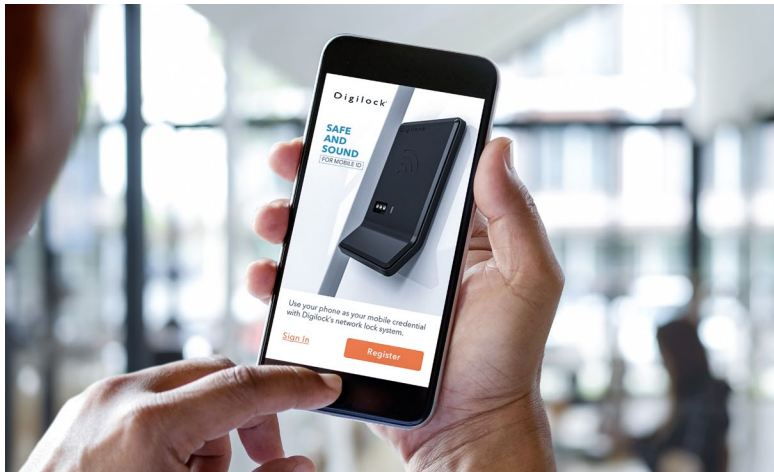

Features a 1/2" (12.7mm) motorized deadlatch designed for assigned use functionality.

Speak to a Digilock representative for more information on the rear unit option that is right for your use case.
