## FUNCTIONALITY

Choose the Use Case That's Right for You.

### SHARED USE

A simple day-use solution, shared use functionality lets the User pick any available storage space and enter any 4-7 digit code or present any Mobile ID to lock and the same user code or Mobile ID to unlock an Aspire unit. When the current user is done and the storage space is vacated, Aspire is ready for the next user.

OR

### ASSIGNED USE

If you need to assign storage for a longer period of time, assigned use lets management program the lock to be operated by a single or multiple users. Each user enters the assigned 4-7 digit code or presents an assigned Mobile ID to access. Then the auto-relock feature is activated requiring the user to simply shut the door.

## Locking Options for Shared and Assigned Use

### DUAL-USE DEADBOLT

Features a 1/2" (12.7mm) motorized deadbolt designed for either shared- or assigned-use functionality.

### AUTO-RELOCK DEADLATCH

Features a 1/2" (12.7mm) motorized deadlatch designed for assigned-use functionality.
