NETWORK MANAGEMENT

Versa™

Flexible by Design

With shared and assigned use capabilities, Versa keypad locks enable storage options with flexibility to adapt to the ever-changing needs of your team— our most versatile lock, Versa provides enhanced, simplified security to any storage solution.

Digilock®

Versa keypad smart lock solutions seamlessly integrate into your workspace environment while providing enhanced security and protection.

Operate easily with an alphanumeric keypad interface or with a convenient Mobile ID.

With functionality at its core, Versa keypad is perfect for streamlining your workflow in any environment.

It's All About Versatility

Engineered for Anywhere

From inspiration to installation, we partner with our customers in many industries to ensure that their facilities offer the latest in personal security solutions, providing convenience and peace of mind.

- Workplace
- Healthcare
- Hospitality
- Retail
- Manufacturing
- Government

Combining quality construction with state-of-the-art security, Versa is perfect for the most demanding environments. Easily managed and simple to use, our lock solutions modernize any space with improved flexibility and collaboration.

All Versa models are available in both surface and recess mount.

2 FUNCTIONALITY

Choose the Use Case That's Right for You.

SHARED USE

A simple day-use solution, shared-use functionality lets the User select any available storage space and enter any 4-7-digit code or present any Mobile ID to lock and the same code or Mobile ID to unlock a Versa unit. When the current user is done and the storage space is vacated, Versa is ready for the next user and code or Mobile ID.

OR

ASSIGNED USE

If you need to assign storage for a longer period of time, assigned use lets Management program single or multiple codes to the lock for the User or Users. Each user enters the assigned code or present their assigned Mobile ID to unlock a Versa unit. To lock, the user closes the door and then turns the knob back to the locked position. The slam cam option automatically relocks when the door is closed.

Four Cam Locking Options
