

Swing gate

BU-DS205A-SS

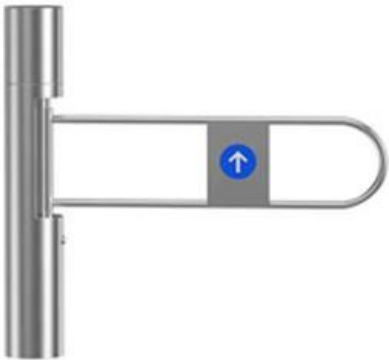

AUTOMATIC SWING GATE

BU-DS205A-SS is an automatic swing gate, the housing of which is made of brushed stainless steel, and the arm of plexiglass or stainless steel (depending on the order). The device complies with international standards for passage for people in a wheelchair.

MAIN FEATURES

- ⊕ Long lifetime and high reliability
- ⊕ Alarm function in case of an attempt to pass through the gate illegally (optional)
- ⊕ It is possible to have built-in sensors to detect whether the arm will not hit a pedestrian (optional)
- ⊕ It has an anti-burglary function - the turnstile is closed by default and opens only after receiving a signal
- ⊕ In case of a power failure, the turnstile will automatically leave the door open
- ⊕ Automatic lock function (if a passing person does not pass the gate for 5 seconds, the arms will be blocked. You can set the time to pass through the gate yourself)
- ⊕ Suitable for both internal and external mounting

AVAILABLE COLORS

**SILVER****BLACK**

TECHNICAL DATA

Model	BU-DS205A-SS
Material	304 stainless steel
Weight	25kg
Passage width	600-900mm
Passage direction	Unidirectional / bidirectional
Power supply	AC220V/110V, 50/60Hz
Operational voltage	24V DC
Power consumption	40W
Working temperature	-15°C - 60°C
Humidity	0 ~ 95%
Working environment	External / Internal
Throughput	30 people per minute
Emergency function	Arms are folded automatically in case of power failure
Communication	Dry contact, relay signal, RS485
