

Remote lock for apartments

vG-BL1 PRO

REMOTE MANAGED LOCK FOR APARTMENTS

The vG-BL1 PRO is a Bluetooth, code and card-operated electronic lock for apartments, hotels as well as offices and any room for rent. The vG-BL1 PRO is an overlay lock - fitting virtually all standard doors. An additional advantage is its matte front panel, which gives it an attractive and minimalist look. Management is done through an intuitive app, which makes it easy to grant access to rooms from anywhere in the world.
