

TURNSTILES ACCESSORIES

The touch panel for gate management features high interference resistance. It supports cable lengths of up to several kilometers from the gate to the panel without signal loss. With dimensions of 107 x 107 x 25 mm, the device has a lifespan of 8 years and operates within a voltage range of 7.5 V to 15.0 V.

PRODUCT MAIN FEATURES

- ⦿ Touch panel for gate management
- ⦿ High noise immunity
- ⦿ Wire length from the panel to the turnstile can be up to several kilometers without any transmission rate loss

TECHNICAL DATA

Model	RE-2K
Temperature range	-10...+55 °C
Power supply	9...16 V DC
Standby current consumption	16mA
Maximum current consumption	60mA
Mass	76g
Maximum humidity	90%
Working frequency	433,05 - 434,79MHz
Dimensions	118*72*24mm
Relay output	2A / 24V DC
SS output	500 mA / 12 V DC
