

Remote lock for apartments

vG-BL Q3

REMOTE CONTROLLED LOCK FOR APARTMENTS

The vG-BL Q3 lock for apartments is a modern and intuitive solution. The vG-BL Q3 is suitable for both short-term rental apartments and hotels, aparthotels (in both offline and online versions), as well as offices. The lock is managed via the TTlock application. With the use of the vGateway series gateway, remote access to event history, generation of access codes, granting and revoking lock permissions, and monitoring battery levels is also possible. The vG-BL Q3 works with the TTlock application, Mifare 13.56 MHz card, PIN code, mechanical key, and fingerprint (optional).

MAIN PRODUCT FEATURES

- ⌚ opening using a remote code, Mifare 13.56 MHz proximity card, mechanical key, and application/Bluetooth, fingerprint (optional)
