

Remote lock for apartments

vG-BL6 FIT

REMOTE-MANAGED LOCK FOR APARTMENTS

The vG-BL6 FIT is an electronic lock operating via Bluetooth, code, card, and fingerprint, designed for use in apartments, hotels, offices, and rental spaces. The vG-BL6 FIT is an overlay lock compatible with almost all standard doors, thanks to its adaptable cylinder fitting that accommodates most lock configurations. An additional advantage is its design, offering an attractive and elegant appearance. Management is handled through an intuitive app, allowing users to easily grant access to rooms from anywhere in the world.

MAIN PRODUCT FEATURES

- Unlocking options: remote code, Mifare 13.56 MHz proximity card, mechanical key, app/Bluetooth, fingerprint (optional).
- Compatible with the free TTlock app.
- Ability to generate codes with hourly precision.
- Supports various code types: permanent, temporary, cyclic, and one-time codes.
- Can be installed as an overlay handle, compatible with existing mortise locks (70-92mm).
- Low battery alert.
- Powered by 4 x AAA batteries.
- Dimensions: 315 x 37 x 30.9 mm.

TECHNICAL DATA

Model	vG-BL6 FIT
Unlocking methods	Remote code / Mifare card 13.56 MHz / Mechanical key / Bluetooth 4.0 BLE app / Remote / Fingerprint (optional)
Color	Silver, Graphite, Gold
Dimensions	315 x 37 x 30,9 mm
Power supply	4 AAA alkaline batteries
Emergency opening	Mechanical key, USB port
Low voltage alert	Below 4.8V
Power consumption	70uA
Power consumption	300mA
Material	Stainless steel, ABS plastic
Application	For indoor and outdoor use (IP65)
Warranty	2 years
Recommendations	-10 °C ~ 60 °C. It is not recommended to install the handle in high-traffic areas (up to 30 passages per day).
