

Electronic Antipanic Lock

EXLH-EU02

ANTIPANIC ELECTRONIC LOCK FOR OFFICE

Electronic evacuation handle, specially designed for office doors, combines functionality with modern technology. Managed via the Evokey app, available on Android and iOS systems, it allows convenient door opening with a smartphone, adding Mifare 13.56 MHz cards and key fobs, viewing event history, and monitoring battery level. This is a reliable and practical solution for places where both security and ease of use are important.
