BW-408FS

FULL HEIGHT TURNSTILES - STADIUM

The BW-408FS is a full-height turnstile with a solid rain protection canopy and an integrated wheelchair/bicycle access gate, designed for sites requiring high-level security in outdoor and indoor environments. Its 304 stainless steel construction ensures durability and resistance to harsh weather conditions. The turnstile provides anti-tailgating protection, automatic arm release during power failure (fire safety compliant), and seamless integration with access control systems.
