

## Remote lock for the apartments

### vG-BL2 mini

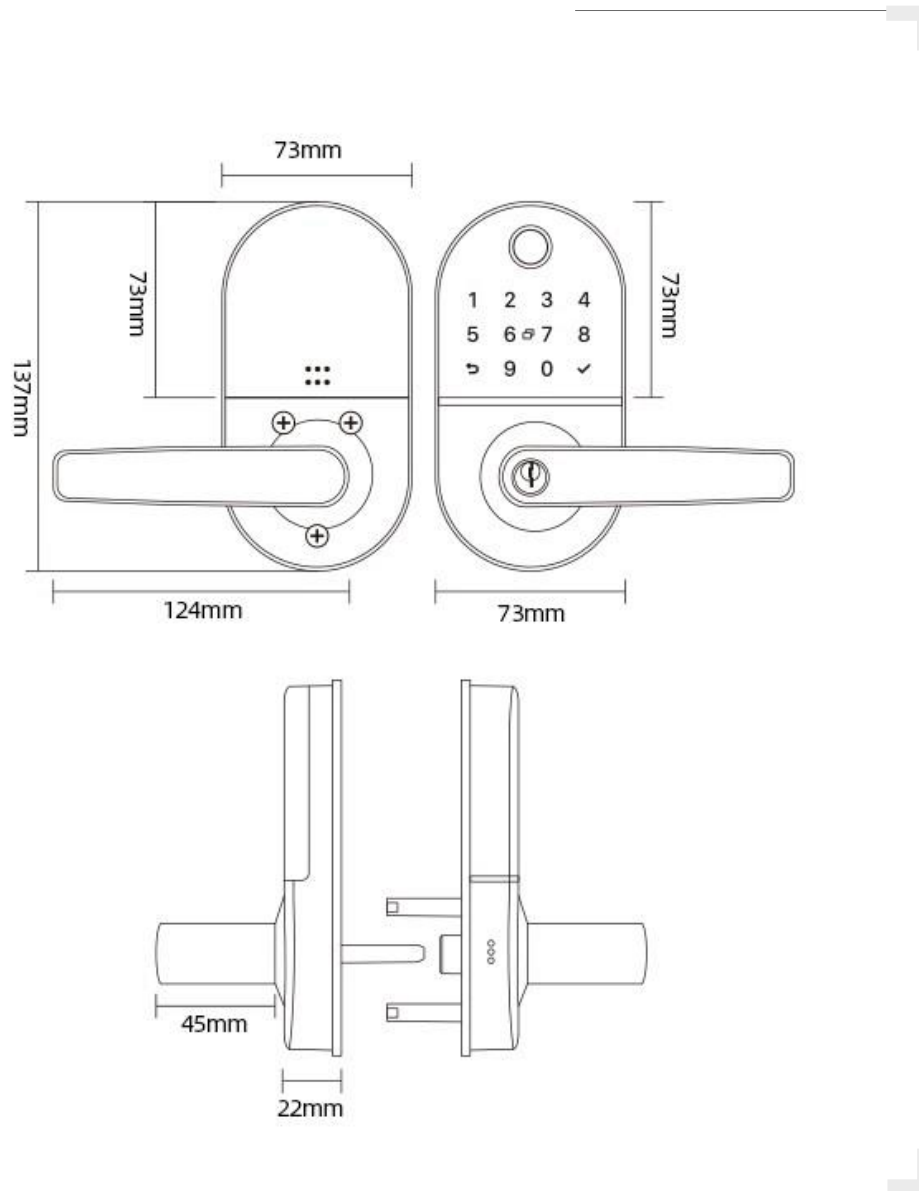

#### REMOTE LOCK

The vG-BL2 mini is a compact smart lock designed for apartments, short-term rentals (Airbnb), and offices. It offers convenient keyless access via app, PIN, card, or fingerprint, with remote control through TTLock or Tuya systems.

#### MAIN PRODUCT FEATURES

- ⦿ Keyless access: app, PIN, RFID card, fingerprint
- ⦿ Remote control via TTLock / Tuya (WiFi/BLE)
- ⦿ Multi-user management (guests, staff, admin)
- ⦿ Fast and accurate FPC fingerprint reader
- ⦿ Voice control support (Google Assistant, Amazon Alexa)
- ⦿ Compatible with EU and US mortise standards
- ⦿ Modern design (black / silver)
- ⦿ Suitable for wooden, security, and composite doors
- ⦿ Emergency USB power supply
- ⦿ Ideal for apartments, offices, and rental properties
