

### ANGLED STRIKE PLATE

The OK-K5 angled strike plate is a durable and universal mounting accessory designed for installing electric strikes in wooden and metal door frames. Made of galvanized steel, it provides high corrosion resistance and long-lasting performance for both indoor and outdoor applications.

### MAIN PRODUCT FEATURES

- ⊕ Angled plate (right-hand, long type) – suitable for various installations
- ⊕ Galvanized steel – corrosion and damage resistance
- ⊕ Universal application – compatible with many electric strikes
- ⊕ Installation in wooden and metal frames – wide usability
- ⊕ Indoor and outdoor use – weather-resistant construction

## TECHNICAL DATA

### Model

Type Angled plate (right-hand, long)

Material Galvanized steel

Dimensions 250 x 25/32 x 2 mm

Installation Wooden and metal door frames

Environment Indoor and outdoor use
